Other Accredited Institutions

- If you want to make up your credit through another institution, **please check with your counselor** before you sign up to make sure that the program is accredited.

Who is eligible? Utah Students in grades 9-12 are eligible to participate in Statewide Education Online Program (SEOP) courses. Online credits replace and do not supplement courses taken at the student's primary school of enrollment. A student may earn no more credits in a year than the number of credits that the student would earn by taking a full course load during the regular school day at their primary school of enrollment, in a traditional classroom. At Summit Academy, a full schedule indicated 8 credit hours.

What if I want to graduate early? A student may be eligible to earn more credits in a year than the number of credits he or she may earn by taking a full course load during the regular school day in their local high school, if that student intends to complete high school graduation requirements and exit high school early in accordance with an approved education/occupation plan (SEOP or CCRP).

Where do I get information about the courses I can take through the Statewide Education Online Program (SEOP)? More information can be found by clicking here: [SEOP Information](#). The Utah State Office of Education (USOE) website contains links to online courses, contacts and other information.
