THE TEACHER

I had already spent a significant amount of time in the US before I came to Utah in the summer of 2022. Back in Germany, I taught 5th through 12th grade and I am thrilled not only to be teaching the German language, but also to be sharing valuable aspects of the German culture with my students.

KACEE, 9TH GRADE / GERMAN DLI PROGRAM

In the first grade I remember being very scared, because I thought it was going to be very difficult to learn German, but surprisingly it was not. I mean, when you start learning German and only speak in German for half of the day from the first or second grade it just becomes so normal, because you don't know any difference. I think I also learned a lot faster and better because I was learning in German. I found that when you are learning the normal curriculum in a different language, it gives you a different perspective and broadens the way you think. I have loved the German program so much since the first grade. German has now always been such a big thing to me and a part of my daily life, and I am just so grateful and glad I had the opportunity to learn German and be a part of the Dual Language Immersion Program.
